We have an additional large hall (Pennine Gallery) to be used for the Guitar Show this year for both dealers and Guitar Factor performers. A plan of this together with pictures will be available as soon as possible. This would be a great area to get some Amplifier makers and distributors into for the show. It's what a lot of the visitors last year wanted to see more of.

This is a very light and large room with great views out over the national park. As well as dealers we will have a small stage for performances from players who want to join 'Guitar Factor' and get voted best amateur player for the 2009 show. Voting will be carried out by visitors to the show filling in Ballot forms and posting them in a box.
